

**Elarya Technologies**

**Elarya Technologies Pvt Ltd, provides one stop solution for your electrical & electronics needs, started in 2023 its operations & supplying components Major OEM's / Tier 1 supplier of aerospace, defence & Navale sector**

**Elarya** is an importer, stockist, reseller and distributor of electromechanical components of leading OEMs & provides engineering services for the Hi-Tech & Electronic Industries.

**Elarya Technologies is an ISO9001-2000 certified company.**

**Elarya Technologies also provides Engineering service, design support & proto types, sample harness before mass production**

**Elarya** has warehouse & stocks many of components, such as connectors, wires, backshells , switches, Circuit Breaks, Thermal pads, Fans , Heat Sinks etc. and is supporting the need of Indian customers who need or prefer to purchase locally .

**Elarya Technologies** head office is located in Bangalore,

Complete custom solutions, including the initial concept, design, drawing, engineering, sample production & approval, full scale production and final testing.

Performance assembly design, drawings for cable & harnesses including component engineering.

Performance assembly drawings and work sheets in all major formats, including AutoCAD, Visio and others, per customer's request.

Dealing with all aspects of product design, components selection, adjustments & modifications, final product work drawings, prototypes production and final approval.

Value engineering (cost reduction).

Manufacturing stages and processes are conducted according to Military /Aerospace & Industrial standards (IPC/WHMA-A-620/ AS9100-D/ ISO9001)

Manufacturing capabilities of all types of cables & harnesses assembly for military, aerospace and medical industries, telecommunications infrastructure, communications systems, navigation, control & monitoring systems in airborne, mobile and stationary platforms

RF & Microwave Coaxial cable assemblies with testing by Network Analyzer (upto 18 GHz)

Sealed plugs and cable assembly upto IP68

Spliced conductive O-rings, conductive gaskets cut into shape according to customer drawing (as Parker Chomerics Authorized Distributor-Fabricators Elarya)

Thermal pads cut into shape

RF cable assembly upto 18 GHz

Plasma Etching wires/elastomers

## Items continuously in Stock:

- Bands-214LF
- DT/DTM
